- f. For the purposes of this Agreement, the term "improper payment" means or includes:
 - i. Any payment that should not have been made or that was made in an incorrect amount (including overpayments and underpayments) under statutory, contractual, administrative, or other legally applicable requirements; and,
 - ii. (9) RECORDS

a. As a condition of receiving state financial assistance, and as required by sections 20.055(6)(c) and 215.97(5)(b), Florida Statutes, the Division, the Chief Inspector General of the State of Florida, the Florida Auditor General, or any of their authorized representatives, shall enjoy the right of access to any documents, financial statements, papers, or other records of the Recipient which are pertinent to this Agreement, in order to make audits, examinations, excerpts, and transcripts. The right of access also includes timely and reasonable access to the Recipient's personnel for the purpose of interview and discussion related to such documents. For the purposes of this section, the term "Recipient" includes employees or agents, including all subcontractors or consultants to be paid from funds provided under this Agreement.

b. The Recipient shall maintain all records related to this Agreement for the period of time specified in the appropriate retention schedule published by the Florida Department of State. Information regarding retention schedules can be obtained at: <http://dos.myflorida.com/library-archives/records-management/general-records-schedules/>.

c. Florida's Government in the Sunshine Law (Section 286.011, Florida Statutes) provides the citizens of Florida with a right of access to governmental proceedings and mandates three, basic requirements: (1) all meetings of public boards or commissions must be open to the public; (2) reasonable notice of such meetings must be given; and, (3) minutes of the meetings must be taken and promptly recorded. The mere receipt of public funds by a private entity, standing alone, is insufficient to bring that entity within the ambit of the open government requirements. However, the Government in the Sunshine Law applies to private entities that provide services to governmental agencies and that act on behalf of those agencies in the agencies' performance of their public duties. If a public agency delegates the performance of its public purpose to a private entity, then, to the extent that private entity is performing that public purpose, the Government in the Sunshine Law applies. For example, if a volunteer fire department provides firefighting services to a governmental entity and uses facilities and equipment purchased with public funds, then the Government in the Sunshine Law applies to board of directors for that volunteer fire department. Thus, to the extent that the Government in the Sunshine Law applies to the Recipient based upon the funds provided under this Agreement, the meetings of the Recipient's governing board or the meetings of any subcommittee making recommendations to the governing board may be subject to open government requirements. These meetings shall be publicly noticed, open to the public, and the minutes of all the meetings shall be public records, available to the public in accordance with Chapter 119, Florida Statutes.

d. Florida's Public Records Law provides a right of access to the records of the state and local governments as well as to private entities acting on their behalf. Unless specifically exempted from disclosure by the Legislature, all materials made or received by a governmental agency (or a private entity acting on behalf of such an agency) in conjunction with official business which are used to perpetuate, communicate, or formalize knowledge qualify as public records subject to public inspection. The mere receipt of public funds by a private entity, standing alone, is insufficient to bring that entity within the ambit of the public record requirements. However, when a public entity delegates a public function to a private entity, the records generated by the private entity's performance of that duty become public records. Thus, the nature and scope of the services provided by a private entity determine whether that entity is acting on behalf of a public agency and is therefore subject to the requirements of Florida's Public Records Law.

e. The Recipient shall maintain all records for the Recipient and for all subcontractors or consultants to be paid from funds provided under this Agreement, including documentation of all program costs, in a form sufficient to determine compliance with the requirements and objectives of the Budget and Scope of Work - Attachment A - and all other applicable laws and regulations.

IF THE CONTRACTOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS CONTRACT, CONTACT THE CUSTODIAN OF PUBLIC RECORDS AT: (850) 815-7671, Records@em.myflorida.com, or 2555 Shumard Oak Boulevard, Tallahassee, FL 32399.

(10) AUDITS

a. In accounting for the receipt and expenditure of funds under this Agreement, the Recipient shall follow Generally Accepted Accounting Principles ("GAAP"). As defined by 2 C.F.R. §200.1, GAAP "has the meaning specified in accounting standards issued by the Government Accounting Standards Board (GASB) and the Financial Accounting Standards Board (FASB)."

b. When conducting an audit of the Recipient's performance under this Agreement, the Division shall use Generally Accepted Government Auditing Standards ("GAGAS"). As defined by 2 C.F.R. §200.1, GAGAS, "also known as the Yellow Book, means generally accepted government auditing standards issued by the Comptroller General of the United States, which are applicable to financial audits."

c. If an audit shows that all or any portion of the funds disbursed were not spent in accordance with the conditions of this Agreement, the Recipient shall be held liable for reimbursement to

the Division of all funds not spent in accordance with these applicable regulations and Agreement provisions within thirty days after the Division has notified the Recipient of such non-compliance.

d. The Recipient shall have all audits completed by an independent auditor, which is defined in section 215.97(2)(i), Florida Statutes, as "an independent certified public accountant licensed under chapter 473." The independent auditor shall state that the audit complied with the applicable provisions noted above. The audits must be received by the Division no later than nine months from the end of the Recipient's fiscal year.

e. The Recipient shall send copies of reporting packages required under this paragraph directly to each of the following:

i. The Division of Emergency Management
DEMSingle_Audit@em.myflorida.com
DEMSingle_Audit@em.myflorida.com

OR

Office of the Inspector General
2555 Shumard Oak Boulevard
Tallahassee, Florida 32399-2100

ii. The Auditor General
Room 401, Claude Pepper Building
111 West Madison Street
Tallahassee, Florida 32399-1450

(11) REPORTS

a. The Recipient shall provide the Division with quarterly reports and a close-out report. These reports shall include the current status and progress by the Recipient and all Sub-Recipients and subcontractors in completing the work described in the Scope of Work and the expenditure of funds under this Agreement, in addition to any other information requested by the Division.

b. Quarterly reports are due to the Division no later than 15 days after the end of each quarter of the program year and shall be sent each quarter until submission of the administrative close-out report. The ending dates for each quarter of the program year are March 31, June 30, September 30, and December 31.

c. The close-out report is due 60 days after termination of this Agreement or 60 days after completion of the activities contained in this Agreement, whichever occurs first.

d. If all required reports and copies are not sent to the Division or are not completed in a manner acceptable to the Division, the Division may withhold further payments until they are completed or may take other action as stated in Paragraph (15) REMEDIES. "Acceptable to the Division" means that the work product was completed in accordance with the Budget and Scope of Work.

e. The Recipient shall provide additional program updates or information that may be required by the Division.

f. The Recipient shall provide additional reports and information identified in Attachment D.

(12) MONITORING

Agreement funds shall be used for installing the necessary items, appurtenant equipment, and materials to provide the ability to use a 500 KiloWatt (KW) standby generator at the Jefferson County K-12 School used to generate emergency power to Building 2 (a/k/a B) and Building 6 (a/k/a F), servicing special needs clients. Agreement funds will also be used for the design and construction of a hurricane-resistant protective enclosure for the generator, new appropriately sized Automatic Transfer Switching (ATS) devices, new electrical panels and miscellaneous hookup incidentals if needed.

Upon written request (U.S. Mail, facsimile, e-mail) by the Recipient and written authorization by the Division, project cost under-run/surplus funds may be used for:

- Additional electrical design, installation or construction on the Jefferson County K-12 School campus that is consistent with Section 453.25.5, *2020 Florida Building Code—Building* (seventh edition) and subsections 1, 2 and 3.

At final close-out, the Recipient shall provide a report showing the actual expenditures for each individual building under this Agreement. Expenditures shall be separated into generator placement and connection electrical work; generator protective enclosure design and construction; and other standby electric power system costs.

PROJECT OVERVIEW:

The identified building(s) have been designated by the county emergency management agency as public hurricane evacuation shelter(s). Therefore, the Recipient agrees that during a declared state or local emergency the building(s) must be made available for use as public hurricane evacuation shelter(s) upon request by the local emergency management agency.

The Recipient agrees to maintain the structure(s) assemblies, equipment, systems, and products that are constructed, modified or installed with grant funds in good repair and functional condition for the life of the work, but not less than 15 years from the date of issue of the building official's certificate of completion or other written acceptance of completed work.

II. SCOPE OF WORK

Grant funds will be used for the design and installation of a new appropriately sized amp automatic transfer switching devices, new panels, and miscellaneous hookup incidentals at the school. Grant funds will also be used for design and construction of hurricane-resistant protective enclosure(s) at the Jefferson County K-12 School.

School Campus / Address	Estimated Quantity of hurricane shelter spaces, spaces	Grant Funds Provided,
Jefferson County K-12 School – Building 2 (a/k/a B) and Building 6 (a/k/a F)	78	\$126,000
Totals (SpN) – cost effective for special needs	78	\$126,000

The identified building(s) have been designated by the county emergency management agency as a public hurricane evacuation shelter. Therefore, the Recipient agrees that during a declared state or local emergency the building(s) must be made available for use as a public hurricane evacuation shelter upon request by the local emergency management agency.

The Recipient agrees to maintain the structure(s) and equipment, systems and products that are relocated, constructed, or installed with grant funds in good working and functional condition for the life of the structure, equipment, system or product, but not less than 15 years from the date of issue of the building official's certificate of completion or other written acceptance of completed work.

Eligible reimbursable costs include, but not limited to: architectural and engineering services and fees; construction management services and fees; site survey and soil testing; necessary permit and inspection fees; site fill, grading and landscaping; civil and utilities site work; necessary demolition and facility or site restoration; construction of protective enclosure and equipment foundation slab(s); essential appurtenant structures and service equipment; special inspections; lightning protection; generator disconnect, loading and unloading, transport and connection; costs associated with Leadership in Energy and Environmental Design (LEED) certification; and, management and administration of the grant (limited to no more than five percent).

- A. At a minimum, the generator system shall be designed and installed to provide full service to OAA electrical systems and circuits, including adequate Heating, Ventilation and Air-Conditioning (HVAC) of shelter occupant areas. Campus mechanical, electrical, plumbing and safety systems that are essential support systems for shelter operations shall be included in the standby electrical system design and installation.
- B. Design and construct a hurricane-resistant protective enclosure for the generator, fuel tank and essential or appurtenant electrical equipment. At a minimum, the protective enclosure, and essential ancillary or appurtenant structures shall meet the hurricane hazard safety criteria established in *Standards for Hurricane Evacuation Shelter Selection* (ARC 4496). Failure to supply the required documentation, or disapproval of this documentation by the Division, shall result in denial of funds.
- C. Install a new automatic transfer switching device, new panels and miscellaneous hookup incidentals.

- D. The wind load design requirements of the protective enclosure(s), essential ancillary or appurtenant structures and equipment shall be in accordance with the American Society of Civil Engineers (ASCE) Standard 7, *Minimum Design Loads for Buildings and Other Structures*. The minimum wind design criteria shall include:

Design Wind Speed, $V = 140$ miles per hour (3 second gust)
Exposure Category = C

- E. The generator and fuel tank, essential ancillary or appurtenant structures and equipment, and protective enclosure(s), shall resist penetration by windborne debris impact. Impact resistance applies to both vertical (walls, doors, louvers, etc) and horizontal (roof) surfaces. At a minimum, the equipment or enclosure(s) must resist penetration by a nominal 2"x4" lumber plank weighing 9 pounds propelled at 34 miles per hour (50 feet per second) striking end-on and normal to the weather surface, or similar performance as approved by the Division. As applicable, impact test procedures shall be consistent with recognized state and national standards; such as, American Society of Testing and Materials (ASTM) Standards ASTM E 1886 and ASTM E 1996, and Florida Building Code Testing Protocols TAS 201, TAS 202 and TAS 203. The Division highly recommends that envelope protection systems and products meet the more severe large missile impact performance standards of the hurricane provisions of International Code Council's storm shelter standard ICC 500.
- F. The minimum design elevation of the lowest floor for the generator enclosure and essential appurtenant structures and equipment shall be located outside of or elevated above the highest elevation of the following: the base flood plus two (2) feet; the 500-year (0.2 percent annual chance) flood elevation (if determined); or the highest recorded flood elevation plus two (2) feet if the area is not in a mapped special flood hazard area.
- G. The following information related to wind loads and flooding shall be shown on the construction drawings: 1. wind design per ASCE 7 with applicable year of revision; 2. design wind speed; 3. wind importance factor, I ; 4. design wind exposure category; 5. design wind pressures in terms of pounds per square foot (psf); 6. Windborne debris impact performance criteria; and 7. Elevation of installed equipment measured relative to the National Geodetic Vertical Datum (NGVD) or base flood elevation.
- H. Where secondary (emergency) roof drains or scuppers are required by the Florida Building Code—Plumbing, the secondary system shall be sized for a rainfall rate of eight (8.0) inches per hour. Floor level drainage of air-permeable or open roof enclosures shall also be sized for a rainfall rate of 8 inches per hour.
- I. The Recipient shall provide a revised budget upon acceptance of responsive bid(s). The Recipient must obtain prior written approval for scope-of-work or budget changes. Failure to supply the required documentation, or disapproval of this documentation by the Division, shall result in denial of funds.
- J. The period of performance for this grant shall end on April 30, 2024 unless an extension is authorized by the Division through modification of the funding Agreement.

The funding provided by the Division of Emergency Management under this Agreement, in part, shall compensate for the materials and labor for the construction of a hurricane-resistant protective

enclosure, installation of storm shutters and/or other hardening activities as a retrofit measure for the Recipient's building to reduce and/or mitigate the damage that might otherwise occur from severe weather or other hazards. The funding of this project by the Division does not confer or imply any warranty of use or suitability for the work performed pursuant to this agreement. The State of Florida disclaims all warranties with regard to this mitigation project, express or implied, including but not limited to, any implied warranties and/or conditions of satisfactory quality and fitness for a particular purpose, merchantability, or merchantable quality.

It is understood and agreed by the Division and the Recipient that the building may have vulnerabilities due to age, design and location which may result in damage to the building from wind events even after the installation of the mitigation measures funded under this Agreement. It is further understood and agreed by the Division and the Recipient that the level of wind protection provided by the mitigation action, although meeting State codes and standards and enhancing the structural integrity of the building, does not ensure the safety or survival of building occupants.

III. DELIVERABLES

Reimbursement for project costs shall be based on the percentage of completion of the project. Any request for reimbursement shall provide adequate and complete source documentation to support all costs related to the project. In some cases, the project may not be fully complete prior to requesting reimbursement of costs incurred toward completion of this scope-of-work; therefore, a partial reimbursement may be requested. For full or partial reimbursement requests, the Recipient shall include a sworn Affidavit or American Institute of Architects (AIA) forms G702 and G703, as required below.
